

Poetry Writing

Write a poem about nature is the trick
in the form of a Haiku, Free Verse, Cinquain, or Limerick.

Center the title and make it **bold**
just as you have been told.

Center the author and make it *italic*
that is my formatting pick.

Choose a font style and set the size to 16
then easily your poem will be seen.

Add a decorative boarder to the page
the size of which you should gage.

Add a special Clipart
one that shows you are so smart.

Correct spelling and grammar errors as you proof read
and you will be finished with great speed.
